## Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible, but I can easily kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the Remedy, with which we Dr. Shoop's Rheumatic Remedy was made perfected, dependable prescription. Without

that ingredient, I successfully treated many, my cases of Rheumatism, but at last, I turned to the easier, though much more difficult disease. Those sand-like granules, found in Rheumatic Blood, seem to dissolve in Amaranth by means of the treatment.

I pass away the action of this remedy as

the time when dissolved, those poisonous wastes

ely pass from the system, and the cause of

equation is gone forever. There is now no

need—no actual excuse to suffer longer with

the help. We sell, and I confidently recommend

for the purpose. The commission met  
in the room of the senate committee  
on Philippines today to perfect its organiza-  
tion and to discuss plans for  
and consider the scope of its work.

The commission consists of nine

members, appointed under the immigra-  
tion act passed by congress last  
winter. Three of them, Senators Dil-  
lingham of Vermont, chairman of the  
immigration commission; Lodge of  
Massachusetts and Latimer of South  
Carolina; Fairbanks, three representa-  
tives Howell of New Jersey, chairman  
of the house committee on immigration  
and naturalization; Bennett of  
New York and Burnett of Alabama,  
by Speaker Cannon; and three Prof-  
essors Charles P. Nell, commissioners of  
law; Prof. J. W. Jenks, of Cornell  
University; Prof. George E. Coe, of  
Berkeley, President of the University of  
California.

Dr. King's New Discovery is my best  
friend. It cured me of asthma six years ago.

It has also relieved me of my heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It is to be considered that the artery  
trouble were to be traced to the kidneys,

but now modern science proves that nearly

all constitutional diseases have their begin-  
ning in kidneys.

If you are sick you can make no mistake

by first doctoring your kidneys.

The mild and the extraordinary effect of Dr. Kilmer's Swamp Root is well known.

It stands the highest for its wonderful cures of the most distressing cases

and is sold on its merits.

My sample bottle by mail Home of Swamp Root, 50c, and second-hand Stoves, Stove Repairs, Boiler Paint, Babbit Metal, best Lubricating Oils and Greases, Boiler Fronts, second-hand Engines, etc.

Don't make any mistakes remember th-

atme Swamp Root, and the address, Rington, N. Y.

on ever Dosis.

It is to be noted that the

trust company or

has been located.

While some work will be done by

the commission in this country by way

of beginning its inquiries, the general

and extent of the work will be left to

the members to deal comprehensively and, if possible, conclusively with the subject.

While some work will be done by

the commission in this country by way

of beginning its inquiries, the general

and extent of the work will be left to

the members to deal comprehensively and, if possible, conclusively with the subject.

It is expected that the trip will oc-

cupy three or four months, for it is

the intention of the commission to go

more extensively into the subject than it

has ever gone into before, and to obtain, so far as may be possible, all the facts at hand.

The work of the commission will

be only fairly begun when it returns to

America. Every possible source of

information bearing on the subject

will be sought. Reports from all parts

of the world to the department

of the commission and experts on im-

migration may be employed by the

commission to collect data. It is the

purpose of the commission to inquire

into the restrictions placed upon Chi-  
nese and Japanese immigration, but it

will visit either China or Japan. The

commission will report its findings to

congress.

Neighbors Patch It Up.

San Salvador, Republic of Salvador.

April 25.—A treaty of peace between

Salvador and Nicaragua has been signed.

It was signed at the action of this country as

well as of the other two countries.

The terms of the treaty are honorable to both countries.

The conditions proposed by Salvador

were accepted and the demands made by

President Zelaya of Nicaragua of

reparation, and Salvador's part in the

war between Nicaragua and Honduras,

and that there be a free interchange of commodities between

Nicaragua and Salvador, were re-

jected.

Fierce Border Warfare.

Salisbury, April 25.—A band of Ser-

vians, directed by a band of Englishmen,

attacked a native town, killing and be-

heading ten of their opponents. The

Turkish troops in the vicinity refrain-

ed from interfering.

Indianapolis Man's Preaching Gave

Negro Strange Tongue.

Memphis, April 26.—After remaining

in a trance for twelve hours from

the effects of a sermon preached by

Rev. G. A. Cook of Indianapolis,

representative of the Apostolic faith

movement, Fredrick, a negro, twenty-

two, a negro, frightened members of

the family of Eldridge E. Wright, son

of General Luke E. Wright, Japanese

ambassador, by speaking in "strange

tongues," and was taken to a police

station on suspicion that he was in-

sanate.

Deputation of ministers, including

G. A. Cook and L. P. Adams, mem-

bers of the Apostolic movement, called

on Chief of Police O'Haver and, after

explaining that Ford was "merely in

a highly developed spiritualistic state

and not insane," effected his release.

Ford had been arrested by police

at a meeting conducted by Cook, and

at the close of the sermon suddenly

threw his hands toward heaven and fell

with his face to the floor.

The soothing spray of Ely's Liquid

Cream Balm, used in an atomizer, in an

unpeakable relief to sufferers from

Catarrh. Some of them describe it as a

Godsend, and no wonder. The thick,

fool discharge is dislodged and the

patient breathes freely, perhaps for the

first time in weeks. Liquid Cream Balm

contains all the healing, purifying ele-

ments of the solid form, and it never

fails to cure. Sold by all druggists for

75c., including spraying tube, mailed

by Ely Bros., 56 Warren Street, New

### SERMONETTES.

The following advice to parents on  
how to treat their boys is taken from the  
"Wait-a-Minute" column of the  
Louisville Herald.

Even when then a friend contributes.  
Here is a little advice. It's free.  
You do not have to take it. You needn't  
read it unless you want to—but DO. It  
will do you good and perhaps help the boy.

There are as many kind of boys as  
there are boys.

Each boy has a back—also a heart.

Were the heart touched more and the  
back less there would not be so much  
talk of bad boys.

"Spare the rod and spoil the child" is  
the fraud theory of the age.

Does the physician cauterize, scarify  
or phlebotomize for every case?

To whip every child for every offense  
is monstrous and iniquitous.

A heart is hardened by such treatment.

A school teacher that punishes  
scholar by whipping is in that respect a  
failure.

A child that is old enough to go to school  
can be reasoned with.

Make your son your friend, your confidant,  
forget his sins and your influence  
will be such that no harsh words need  
ever be uttered, no punishment inflicted.

If he comes home with his clothes torn,  
face and hands dirty, crippled from  
playing baseball—say: "Johnnie, which  
side won?"

See how he will brighten up, and how  
enthusiastically he will tell you he  
knocked every ball nearly to the fence.

Don't let your boy recite to you visitors—  
have mercy on your guests, and  
say them from the "white lie" habit.

Don't tell your neighbor's wife that  
your boy never told a lie in his life.

She may have a boy, too, and she will  
doubt you.

If this unaccountable, uncontrollable  
inclination comes over your boy to break  
a window tell him to come home and  
break yours.

It's less expensive and remarks there  
will not be so plentiful.

If you are making get him the best  
and strongest cigar it is heroic  
treatment—but it cures.

If you go to the matinee or the ball  
game, take him with you.

If he wants to have boys race and rip  
through your house, let him have his  
way.

At least you know that you have him  
at home.

If he comes marching home with a  
blacked eye and nose bleeding, say to  
him: "Johnnie, did you give the other  
fellow a few wallops?"

According to his story—good as his  
story—you will soon feel sorry for the  
other boy.

If you want him to go to Sunday  
school go with him.

If he don't want to go to church, don't  
make him.

Don't make him read the Bible—teach  
him about it.

One little boy we know was not quite  
three years of age. For some offense his  
father had punished him. He cried a  
little while, and then said:

"I don't see what you want to hit a  
little child like me that way for."

He was told that it was necessary to  
make him obedient.

He then said: "A few taps would  
have done just as well. My grandmother  
says that my mother was an awful bad  
child, and my grandma says that you  
were the worst boy in town. My mother  
has come out all right; you have come  
out all right, and if you'll let me alone I  
will come out all right."

That boy was a philosopher. All boys  
are philosophers.

Now don't ask us to treat our boy  
as we advise you to treat yours, for we  
will be compelled to tell you that we  
have no little boy.

Mr. Matheny Leaves.

Mr. F. E. Matheny, who has been  
making his headquarters in Cloverport  
as foreman of the Indiana Tie Co., has  
moved to Stephensport. Mr. Matheny  
has purchased some very desirable prop-  
erty in Stephensport and will move his  
family there from Eldorado, Ill. Mr.  
Matheny is an excellent business man  
and Cloverport dislikes to give him up.

### SPELLING REFORM'S PROGRESS.

PROFESSOR BRANDER MATTHEWS.

Chairman Brander Matthews of the  
Simplified Spelling Board, at its first  
meeting in New York, presented  
a report in which he stated that  
at least 100,000 persons were using  
the form of spelling urged by the  
organization.

**Early Marriage Results.**  
Divorces are, happily, rare in society  
circles. Separation by mutual consent,  
however, grows more frequent every  
year. Every one has upon his or her  
visiting list husbands and wives who  
never meet if they can help it, but be-  
tween whom there has never been an  
open quarrel. The cause of the  
parting is usually the same, the still com-  
mon custom of encouraging the younger  
generation to marry before they have  
begun to approach years of discretion.—London Throne.

### French Ignorance of the Bible.

As to the utter ignorance of the  
ordinary Frenchmen of the Bible, Mr.  
Steed gave a curious illustration of  
his own experience. At a general  
election he filed for a political  
pamphlet entitled "The Candidates  
of Cain," dedicated to all candidates  
who approved of the Boer war. A French  
publisher asked to be allowed  
to bring the pamphlet out in a  
French translation in Paris. "But," he  
said, "he will give us another name."  
No, he insisted, he must call it "Cain."  
On Mr. Steed repeating this to some  
friendly friends in Paris they de-  
clared the publisher was right. "Are  
none of the Biblical characters known  
to this generation of Frenchmen?" Mr.  
Steed asked. "Not one," was the as-  
tonishing reply. "Nobody reads the  
Bible in France."—Westminster Ga-  
zette.

### The Stormy Gulf.

The gulf of Mexico is a water of  
storms, not frequent, but frenziedly  
seas, seen to gravitate to it naturally.  
They are born in the neighborhood of  
the Yucatan peninsula, strike the West Ind-  
ies and not infrequently leave those  
islands at a tangent, just as a ball  
thrown at an obtuse angle against a  
wall sits along it for a little space  
and again seeks a vacuum.

These erratic forces of the air strike the  
coast of Mexico or the coast of Texas,  
according to their angle and death is in  
their track. The terms called "tidal  
waves" are not seen in tidal  
waters. They are not caused by  
an upheaval. They are merely walls in  
effect. They are not vast walls of  
water, moving with irresistible speed  
and weight over the face of the ocean.  
They are mere banks up against a  
coast by means of which they  
overflow. In many instances the sub-  
mergence is gradual, and ample opportu-  
nity for escape is given. Other times  
the violence of the air makes them  
sudden, and people are drowned.
